

**PEST MANAGEMENT & FUMIGATION
TRAINING • MENTORING • CONSULTANCY**

To whom it may concern,

I wish to advise you that I have known Owen Stobart both professionally and personally since 2016.

Owen has attended and successfully completed 2 of our Pest management Training programs associated with Australia and New Zealand Licencing requirements associated with providing Urban Pest Management services in both countries.

These courses comprised a vast array of classroom theory and practical exercises that delved in to several areas of urban and timber pest management and the range of non-vertebrate and vertebrate pests and their basic biology and habits.

Owen also operates a very professional pest management business and prides himself on not only his understanding of pests, but also his ability to provide relevant and up to date information and services to his clients.

Overall, I believe that Owen sets the bar above the industry standard on a consistent basis and has the necessary knowledge and experience to enrol in and successfully complete the ACE-1 program.

I have no problem in vouching for Owen's ability to complete your course. I think it is absolutely wonderful that Owen is seeking to extend himself and further his knowledge.

I wish him well in his endeavours to complete your course.

If you would like any further information or would like to discuss any of the above, I can be contacted on +61 418 786711 or bruce@protrain.com.au

Kind regards
